

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (Previously Presented) A refrigerant composition which comprises:

(a) pentafluoroethane in an amount from 35 to 60% based on the weight of the composition,

(b) a mixture of pentafluoroethane and 1,1,1,2-tetrafluoroethane in an amount from 64 to 94% by weight based on the weight of the composition and

(c) an unsubstituted hydrocarbon of the formula C_nH_m in which n is at least 4 and m is at least $2n-2$, other than methyl propane, in an amount from 1 to 10% by weight based on the weight of the composition.

2. (Previously Presented) A composition according to claim 1 in which component

(c) is present in an amount from 2 to 6% by weight based on the weight of the composition.

3. (Previously Presented) A composition according to claim 2 in which component (c) is present in an amount from 3 to 4% by weight based on the weight of the composition.

4. (Canceled)

5. (Withdrawn) A composition according to claim 1 in which component (a) and (b) are both pentafluoroethane which is present in an amount from 90 to 99% by weight based on the weight of the composition.

6. (Withdrawn) A composition according to claim 1 in which component (a) comprises octafluoropropane and component (b) is 1,1,1,2-tetrafluoroethane.

7. (Withdrawn) A composition according to claim 6 in which the octafluoropropane is present in an amount from 5 to 15% by weight based on the weight of the composition.

8. (Withdrawn) A composition according to claim 7 in which the octafluoropropane is present in an amount from 7 to 12% by weight based on the weight of the composition.

Claim 9. (Canceled)

10. (Previously Presented) A composition according to claim 1 in which component (b) is present in an amount from 75% to 90% by weight based on the weight of the composition.

11. (Previously Presented) A composition according to claim 1 in which component (c) possesses 4 or 5 carbon atoms.

12. (Previously Presented) A composition according to claim 11 in which component (c) is n-butane.

C 1
13. (Currently Amended) A composition according to claim 12 which comprises:

(a) pentafluoroethane in an amount of at least about 35% by weight,
(b) a mixture of pentafluoroethane and 1,1,1,2-tetrafluoroethane in an amount of at least 64% by weight, and

(c) n-butane, in an amount from about 2.3 to about 4% by weight based on the weight of the composition.

14. (Previously Presented) A composition according to claim 13 in which component (c) is present in an amount from about 2.3 to 3.5% by weight based on the weight of the composition.

Claims 15 and 16 (Canceled)

17. (Previously Presented) A composition according to claim 1 in which component (a) is present in an amount from 40 to 55% by weight based on the weight of the composition.

18. (Previously Presented) A composition according to claim 17 in which component (a) is present in an amount from 45 to 52% by weight based on the weight of the composition.

C 19. (Withdrawn) A composition according to claim 13 in which component (b) is 1,1,1,2-tetrafluoroethane.

20. (Withdrawn) A composition according to claim 19 in which component (b) is present in an amount from 35 to 60% by weight based on the weight of the composition.

21. (Withdrawn) A composition according to claim 20 in which component (b) is present in an amount from 45 to 60% by weight based on the weight of the composition.

22. (Withdrawn) A composition according to claim 21 in which component (b) is present in an amount from 47.5 to 55% by weight based on the weight of the composition.

23. (Previously Presented) A composition according to claim 13 which comprises a further component.

24. (Previously Presented) A composition according to claim 13 which comprises (a) pentafluoroethane in an amount of about 46.5% by weight (b) 1,1,1,2-tetrafluoroethane in an amount of about 50% by weight and (c) n-butane in an amount of about 3.5% by weight.

C
Claim 25 (Canceled)

26. (Previously Presented) The process for producing refrigeration which comprises condensing a composition as claimed in claim 1 and thereafter evaporating the composition in the vicinity of a body to be cooled.

27. (Previously Presented) A refrigeration apparatus containing, as refrigerant, a composition as claimed in claim 1.
